Subject: Draft of Reclamation Contract - Phase I Mining Plan, Lisbon Valley Mining Project

Gentlemen:

Attached please find my initial Draft of the Reclamation Contract for Phase I at Lisbon Valley. Please review and edit as you see fit.

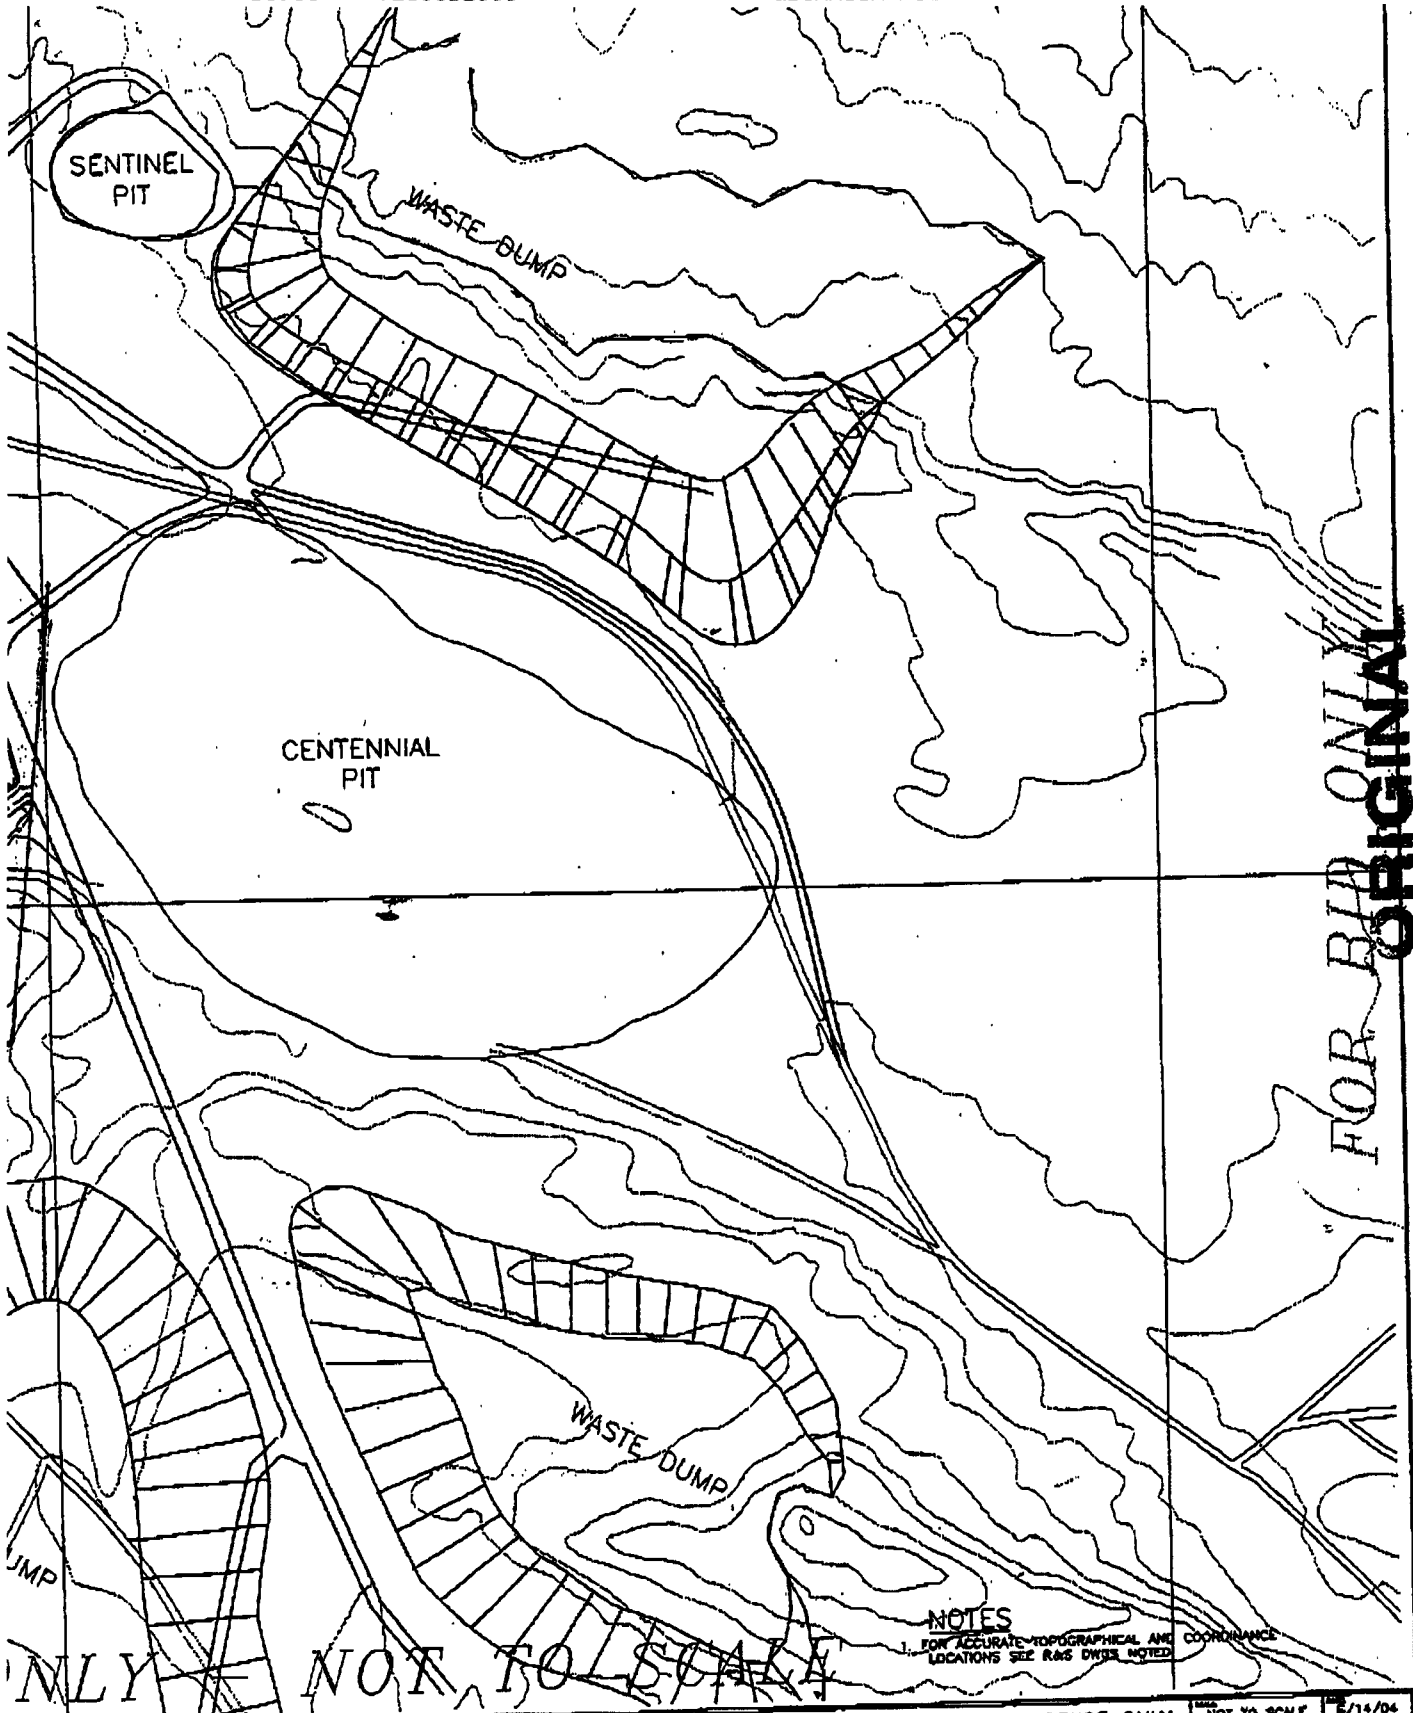

Also, per discussion with Mike Attaway, I am sending along (via Fax) the current outline for Phase I which was provided by Bob Washnock. I am interested if there are any additional facilities/structures that should be included with this Map??? (i.e., stormwater storage and/or diversion. Once everyone has blessed this, I will get it planimetered and the acreage included/inserted into this Document. I will also transfer this to a 1-24000 scale map (per BLM request) so that they can complete consultation.

Please call if you have questions.
